

ROUGH PROGRAM OF OZARK CONVENTION

President Coin Harvey
Comments on Spring-
field Meeting.

SOME BIG SPEAKERS

Discussion of Proposed
Routes on "Trail" Will
Be Feature.

Special to The World.

MONTE NE, Ark., June 21.—W. H. Harvey, president of the Ozark Trails association, gave out here today the following statement:

"It is important that all delegations to the trails convention at Springfield, Mo., to convene Tuesday morning, June 27, should arrive in Springfield Monday afternoon and evening to prevent the confusion and delay that will occur by arriving the morning of the 27th.

"The main value of our conventions

is that they are a school on how to promote and how to construct roads, and I sincerely hope that all county judges and county commissioners within our territory in the four states will be present at the convention. They are all ex-officio delegates to the convention. They will learn more about how to spend road tax money in two days than they will otherwise in many years.

No Set Program.

"We have not and cannot have a set program for our conventions, as our work assumes a form similar to all popular conventions. But I can say this much: The convention will open 9 a. m. Tuesday, June 27, in the convention hall.

"There will be prayer by a local Springfield minister. A local man, selected by the greater Springfield committee, will voice the welcome of that city to the delegation. There will be a ten-minute speech by Senator Parria of Rolla, bidding us welcome to the state of Missouri, and response by Kansas, Oklahoma and Arkansas, each in a ten-minute speech. The president of the association will then address the convention on the 'Ozark Trails Association, Its Aim, Its Purpose and Its Object'.

"Among the notable speeches that will be made during the two days of the convention will be: John T. Woodruff, chairman of the greater Springfield committee, subject, 'The Treaty of Independence'; Cyrus Avery, chairman of the county commission of Tulsa county, Oklahoma, subject, 'Hard Surfaced Roads vs. Dirt Roads'; Frank W. Huffman, state highway commissioner of Missouri, subject, 'Economy of Construction'; Thomas J. Tynan, warden of the Colorado penitentiary, subject, 'How We Constructed One Thousand and Two Hundred Miles of Roads in Colorado With Convict Labor', illustrated with moving pictures.

"The evening session at 8 p. m. Tuesday, 27, will be given over to the contesting delegations for our route between Joplin and Springfield, and Springfield and St. Louis, with the convention hall open to the public. Each route will be given a hearing. What will have weight will be distance, drainage, grade and hard surfacing. And on all unfinished roads the question will be, is it financed? What guaranty have we that it will come up to requirements?

"The election of officers and fixing the place of holding the next annual convention will come at the close of the second day."

Money for Diplomats.

WASHINGTON, June 20.—The senate today passed the annual diplomatic appropriation bill carrying approximately \$1,500,000 and containing provision for extra allowances to enable diplomats in Europe to meet the increased cost of living.

Vacation Days Are Here.

Let us know where you are going. We will send the Tulsa Daily World to you each day. Telephone the circulation department now, lest you forget.

THE HEAT DOES THIS.

Ever alert to catch a bit of local color or a feature on the Mexican situation, the reporter yesterday scanned the great book in the office of the county clerk in which records of all marriage licenses are kept. The search was about to be given up when the thing "popped" suddenly as all such things do in newspaperdom.

At exactly 4 o'clock Aaron Morgan and Nola Muchmore of Sapulpa walked into the office and procured a marriage license. The reporter hid himself to the court of Justice Lee Daniel and a few minutes later the happy couple walked in and announced their intentions to the magistrate.

The ceremony was performed promptly and then the happy groom exclaimed, "Well, it was either do this or go to war but I Muchmore prefer Sapulpa and home." His pretty bride blushed and they left the courtroom gazing rapturously into each other's eyes and with no thought of the border—but the reporter had his bit of color.

TO BE CRAMPED IN NEW POSTOFFICE

Federal Building Under
Construction Will Barely
Fill Needs.

NOT ENOUGH BOXES

Postoffice Will Occupy
Only Ground Floor and
Part of Basement.

According to the present demands upon the postoffice department and the natural increase in business that is expected, the new federal building will be taxed to capacity the first day the postoffice is moved into the structure. Although the federal offices of the second floor probably will be adequate for some time, the room appropriated for the postoffice will not keep pace with Tulsa's development for a very long time.

The ground floor and part of the basement will be used by the postoffice while the second floor has been set aside for federal offices. The ground floor is larger than the present quarters but within a short time will be as crowded as the old location is now.

The main lobby for patrons will be about 20 by 100 feet square, extending across the Boulder avenue side of the structure. Back of this will be the work room in which all activities of the postoffice will be carried on. This work room will be 124 by 70 feet and will be one room with the exception of private offices for the postmaster and assistant postmaster. This size work room is about suitable for the present force.

The new building provides for 1,235 mail boxes to be rented. There are one thousand boxes in the present quarters. All of these are rented, many have been allowed to double up on account of the shortage, and there are 1,000 applications for boxes on file.

There are twelve windows in the old postoffice building, all of which are in use and the new structure will have only 11 windows. The present facilities provide for four general delivery windows, two stamp windows, one registered mail window, one parcel post window, one superintendent's window, a window for the assistant postmaster, and two auxiliaries.

The basement will be used only for a storeroom for the postoffice and the other federal departments. The second floor contains 14 offices and one federal courtroom. One of the offices will be retained by Ralph T. Johnson, assistant postmaster, for the purpose of giving civil service examinations.

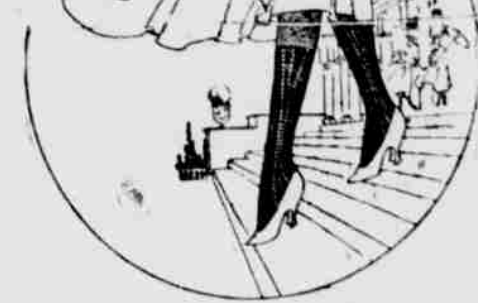

The building is being built with white stone which, according to Henry Brock, one of the most experienced of the government force, who is government superintendent on the Tulsa work, is almost up to the standard of marble.

The inside of the building will be furnished complete with white marble, including floor, walls of the lobby, stairway and ornamental pieces. The ground floor will be 14 feet high, with an ornamental ceiling. There will be a skylight in the back of the workroom to augment the force of the large windows. There will be no demand for artificial light during daylight.

The courtroom will be the highlight of the building, together with the main lobby of the postoffice. This room will have a 22-foot ceiling and shall be finished throughout with quarter-sawn oak. The walls and ceiling will be paneled. A seating capacity of about one hundred is planned, the building being 58 by 54 feet.

The work of closing in the building

is about three-fourths completed, there being about 11 feet more of stone-work to be done. The construction has been hindered recently by a shortage of stone, but Superintendent Brock is of the opinion that this will be abated in a short time.

The equipment for the building will be chosen by J. M. Crutcher and Ralph R. Johnson, who have charge of the local office. This equipment will be new throughout and of the latest design. A shuttle and electric carrier will be provided for the transportation of mail from one part of the building to another. The boxes will be key boxes instead of the obsolete combination type.

The contract calls for the completion of the building by June 14, 1917, but Superintendent Brock said yesterday that he expected the work to be over a month or two before that time.

\$30,000,000 SPENT ON IMPROVEMENTS

State Municipalities Have Issued
Enormous Amount of Bonds
Since 1910.

Special to The World.

OKLAHOMA CITY, June 21.—Since 1910 municipalities in Oklahoma have issued and the attorney-general's office has approved bonds in the total sum of \$30,000,000. This money has been spent for public improvements in cities and towns and school districts. Since Attorney-General Freeling has been in office, not quite two years, he has approved bonds to the extent of \$6,214,612. There have been 474 bond issues, or practically one a day since he has been in office. These bonds have all been approved and the money made available for use. The attorney-general made a ruling requiring that all bonds presented for consideration must be accompanied by all contracts having to do with the issue. In case any issue involves an attorney's fee to be paid out of the bond issue, the bonds are not approved.

TREASURER WILL FIGHT CHARGES

E. H. Zacharie, Former Treasurer,
Waives Preliminary Embodiment Hearing.

Special to The World.

OKLAHOMA CITY, June 21.—Homer Hammonds, assistant state examiner and inspector, returning from Pawhuska, where an examination of the records of county officers is in progress, said today that E. H. Zacharie, former county treasurer, had waived preliminary examination on charges of embezzlement and falsification of records and under \$5,000 bond would await the action of the district court. W. M. Sloan had been selected by the county commissioners to take charge of the office. Records of all county officers are now being investigated.

HIGH SUGAR AFTER THE WAR

President of Refining Company Expects Continuation of Advance.

NEW YORK, June 21.—High sugar prices will continue for some time after the war, Claus A. Spreckles, president of the Federal Sugar Refining company, declared in addressing the annual meeting of the company's stockholders here. He announced that no portion of the surplus of the company would be distributed to holders of common shares at present.

"Unlike other commodities for which the war has created an abnormal demand," said Mr. Spreckles, "sugar is an essential at all times and to all peoples. The destruction of mills, the ravaging of fields and the slaughter of workmen have put it completely out of the power of foreign sugar-producing companies to supply any part of their own or the world's needs at the condition is in my opinion, likely to endure for several years after the war ends. American refiners are now supplying practically all Europe."

MINOR'S BUSINESS DEALS ARE INVALID

Supreme Court Holds Rights of Majority Confirmed Are Altogether Void.

Special to The World.

OKLAHOMA CITY, June 21.—Rights of majority conferred upon a Creek freedman allottee under a Creek freedman allotment as it purports to empower him to transact business as an adult with reference to the proceeds of his allotted or inherited lands, is ineffectual and void, is held in an opinion written by Commissioner Bleakmore of the supreme court and approved by the court today. The case comes from the Muskogee county district court, the judgment of the court being reversed and the case remanded. The guardian of Emmett Brewer, minor, brought suit against Jackson Berryman, a former guardian, the Southern Surety company, J. S. Dodson and the American Surety company of New York to cancel transactions in which Brewer had expended his majority rights. Even though the transactions had not been attended by fraud, the court said, the facts showed that instead of Brewer being 19 years old, as was alleged, he was only 16, and the court had no right to confer majority rights upon him for the purpose of exercising rights that would have to do with lands that had been allotted him by the government and upon which restrictions had not been removed.

WALKER AND HEAD GUILTY

Former Texas National Guard Officers Convicted of Conspiracy.

AUSTIN, Texas, June 21.—E. E. Walker and George J. Head, former officers in the Texas national guard, were convicted Monday in the federal court of a charge of conspiracy to defraud the government in connection with the alleged conversion of condemned military stores and supplies. The jury agreed on a verdict within 15 minutes after the case was given it. The penalty is a term in the penitentiary not to exceed two years.

Three indictments charging embezzlement are still pending against Walker and one charging embezzlement against Head. These cases will not be tried at this time of court.

LIFE IS RISKED FOR FROG

Good River Physician Falls Into Well, But Is Rescued.

HOOD RIVER, Ore., June 21.—An attempt to rescue a frog from a well 16 feet deep almost cost Dr. W. M. Post his life.

Doctor Post was standing half way down in the well, clinging with a hand and foot in the crevices of its stone wall, when he slipped. Although bruised by the jagged rocks, he managed to hold on to the rod of a pump and attract the attention of his small son, who came with a rope, by which the father was rescued.

The frog was rescued later.
